Reasons for Allowance

The following is an examiner's statement of reasons for allowance: applicant's amendments and acceptable Terminal Disclaimer have placed the claims in condition for allowance. With respect to independent claims 42, 52 and 60, these claims were amended to recite that the first and second handle members were longitudinally separated by a tubular sheath extension which also serves to couple the first handle to the second handle member. The Kozak et al reference fails to disclose such a tubular sheath member, and the remainder of the prior art fails to suggest motivation to provide such a tubular sheath in the Kozak et al reference. Claims 46, 56 and 61 were previously not rejected under prior art as the prior art does not disclose the particular key portion for engaging the knob and the bore. Claims 46 and 56 were previously dependent claims and have been rewritten in independent form. The acceptable Terminal Disclaimer has overcome the previous double patenting rejection of these claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Peffley whose telephone number is (571) 272-4770. The examiner can normally be reached on Mon-Fri from 6am-3pm.
